The Centre for Sustainable Transportation*

The Centre for Sustainable Transportation (CST) at The University of Winnipeg is a membership-based, non-profit organization that facilitates best practices for the movement of people and goods over the long-term.

The CST bridges academic, business, and public interests to identify and help craft winning transportation solutions that benefit society and the environment and enhance mobility.

The Centre for Sustainable Transportation
Le Centre pour un transport durable

What does the CST do?

The Centre actively works to further sustainable transportation by:

- Providing input on policies and actions by delivering accurate, thoughtful and objective information.
- Acting as a source of information for leading decision makers, media and the public.
- Providing a forum for diverse interest and organizational groups to work together towards a common goal.
- Performing important research on issues affecting sustainable transportation issues.
- Producing timely, high quality publications and materials.
- Sponsoring workshops, seminars, conferences and task forces that bring together key stakeholders and enhance mutual understanding, increase knowledge and stimulate action.
- Promoting and sponsoring innovative demonstrations and pilot projects.
- Providing expert and timely services to our members, partners, the Canadian transportation community and international interest groups.

A sustainable transportation system is one that:

- Allows the basic access needs of individuals and societies to be met safely and in a manner consistent with human and ecosystem health and with equity within and between generations.
- Is affordable, operates efficiently, offers choice of transportation mode and supports a vibrant economy.
- Limits emissions and waste within the planet's ability to absorb them, minimizes consumption of renewable resources to the sustainable yield level, reuses and recycles its components and minimizes the use of land and the production of noise.

Membership Benefits

- Preferential access to research, information and resources in the member's area of the CST's website.
- Personal access and collaboration opportunities with today's leading researchers on sustainable transportation.
- The leadership and direction to help integrate environmentally responsible actions in a meaningful and effective manner.
- The opportunity to coordinate and collaborate with regulating bodies and other organizations across the transportation and sustainability spectrum.
- The opportunity for active interaction and participation in the future development of the transportation industry.
- Public representation of your organization's commitment and leadership in issues relating to sustainability.
- Discounted admission to the CST's events, including speaker sessions, round table events, exploratory forums and an annual conference on sustainable transportation.
- The opportunity to publicize related events on the CST's event calendar and website.
- Direct access to the CST's quarterly newsletter and The Sustainable Transportation Monitor.
- Information on the CST's current research and projects, involvements, and events.
- Voting privileges and the opportunity to join the CST's Board of Directors*.

* Not available to individual or student members

Who Should be Involved with the CST?

The Centre is for everyone, membership is designed to reflect the full spectrum of the transportation community.

- Transportation service providers and related industries
- Rail and transport trucking industries
- Labour unions and related organizations
- Non-profit organizations interested in economic, social and environmental issues
- Energy and telecommunications organizations
- Urban and municipal planners
- All levels of government
- Academic institutions
- Research organizations
- Anyone concerned with the affects of non-renewable fuel sources and emissions
